

Dalveer Singh

Full Stack Developer (Authorized to work full time in Canada))

Experienced Node.js, Next.js, and React.js developer with the ability to learn and collaborate in rapidly changing environments and compositions. Worked through 1000+ hours of boot camp structure, learning Typescript, Javascript, Node.js, React.js, Next.js, NoSQL, SQL, and many more. Eager to tackle web development/design challenges to achieve a lasting impact on user experience.

I am looking for a front-end, back-end, or full-stack web application developer position to implement my skills to solve complex problems and satisfy the people using my applications.

Work History

Jan 2022
- present

Software Developer Intern

INFOWIZ, Etobicoke, ON

- Working in Node.js, Next.js environment using a custom Express server.
- Building RESTful APIs that serve data to the React front-end.
- Finding and fixing the bugs in Next.js applications.

Education

Sep 2020
- Apr 2022

Computer Application, Computer Software and Database Development

Lambton College Of Applied Arts And Technology, Toronto, ON

May 2016
- May 2019

Computer Application, Bachelor of Computer Application

Punjabi University, Patiala, Punjab, India

Projects

AssignDaku.com

<https://assigndaku.com/>

Utilized **My Own SMS API, Typescript, Next.js, Custom Express Server, React.js, Mongoose, Strip Payments, TailwindCSS**. Here I help others with programming bugs, assignments, and projects. I control user requests through my admin panel. This domain directly accesses my computer IP, so it may not open if my computer is turned off.

- Jan 2022

Portfolio Website

<https://dalveersidhu.com/>

It's my personal portfolio to showcase my education, skills, and projects. Utilized **Node.js, MongoDB, React.js, Next.js, Redux.js, React Animations**, etc.

- Dec 2021

Quiz app Using React and Next.js

<https://next-js-quiz-app.vercel.app/>

A SPA Quiz app using **NEXT.js, Node.js, React.js, Redux.js**, etc. It fetches quiz data from API. Consists of a category page, start quiz page, quiz page, answers, quiz details page, etc.

- Sep 2019

Shopping Store

<http://desicart.000webhostapp.com/>

This was static using **HTML5**, **CSS3**, and **Javascript**. The main focus was on responsiveness and design. Some features like Adding and deleting products to Cart, total amount, etc were made to work using **JS**, **browser local storage and cookies**, etc.

Github: <https://github.com/dalveersidhu97/WebProject>

- Aug 2021

Quiz application for Android

Utilized **Android Studio**, **Java**, **MVC**, **Retrofit network library**, **SQLite**, **APIs**, etc.

The app fetches different quiz categories from API. Activities like Splash, Category, ConfirmQuiz, RunningQuiz, QuizDetails, and QuizHistory are included. Quizzes are saved using the SQLite database and shown in the history activity.

Github: <https://github.com/dalveersidhu97/QuiziAndroidProject>

Working on more project.
